Serial number			

Software

To prevent errors during installation:

- 1 Close all open programs.
- 2 Temporarily disable any anti-virus software. For help, refer to your program documentation, or contact the software manufacturer for support.

Note: After installation is complete, remember to re-enable your anti-virus software.

Setup Troubleshooting

Symptom	Diagnosis	Solution	
Power light is not lit	Is the power cord pushed all the way into the All-In-One?	Disconnect the power cord from the wall outlet and then from the All-In- One. Reconnect the power cord by pushing it all the way into the power supply on the All-In-One and then into the wall outlet.	
	Is the All-In-One connected to a working electrical outlet?	Connect the All-In-One to an electrical outlet that other electrical devices have been using.	
Software will not install	Is your operating system compatible with the Lexmark All-In-One?	The All-In-One supports these operating systems: • Windows 98 • Windows Me • Windows 2000 • Windows XP • Mac OS X version 10.2.3 and later	
Alignment page or test page will not print	Is the All-In-One on?	Press the Power button. If the Power light does not come on, see the "Power light is not lit" symptom at the beginning of this table.	
	Do you see an error message?	See "Error messages troubleshooting" in your User's Guide.	
	Is the All-In-One connected to your computer through another device, such as a USB hub or switch box?	Disconnect the USB cable from any other devices and connect it directly between the All-In-One and your computer. For help, see step 13.	
	Did you remove the sticker and tape from the bottom of each print cartridge? Are the print cartridges installed properly?	Remove the print cartridges, check for the sticker and tape and then reinsert the cartriddges. For help, see steps 7, 8, and 9.	
	Is the paper loaded correctly?	See step 6.	
Control panel displays text in the wrong language	Did you select a language?	 Press the Power button to turn off the All-In-One. Press and hold both the Power and Cancel buttons for 10 seconds. Language text appears on the display. Press the + button repeatedly until the language you want appears on the display. Press the Arrow button to select that language.
