Setup troubleshooting

Symptom	Diagnosis	Solution
The Power light is not lit	Is the power cord pushed all the way into the printer?	1 Disconnect the power cord from the wall outlet, and then from the printer.
		2 Reconnect the power cord by pushing it all the way into the connector on the printer, and then into the wall outlet.
		3 Press Power.
	Is the printer connected to a working electrical outlet?	1 Connect the printer to an electrical outlet that other electrical devices have been using.
		2 Press Power.
Memory card is not recognized by the printer	Is the memory card damaged?	Verify that there is no damage to the memory card.
	Is the memory card inserted correctly?	Insert the memory card correctly. For help, see "Inserting memory cards" in the User's Guide.
	Is there more than one memory card inserted at the same time.	Only one memory card may be used at one time.
		Remove the second memory card.
	Are you using a supported memory card type?	For supported memory cards, see "Supported memory cards" in the User's Guide.
	Do you have a PictBridge-enabled digital camera connected to the printer.	Disconnect the PictBridge-enabled digital camera from the printer.
The control panel displays text in the wrong language	Did you select a language?	1 Press Menu.
		2 Press the down arrow button until you reach the last item.
		3 Press the up arrow button twice.
		4 Press + or - to scroll to the language you want.
		5 Press Select to save your choice.
