For occasional label printing, use paper labels designed for laser printers. You can load labels one at a time from the manual feed, or you can load up to 10 sheets of labels in tray 1.

For more information on label printing, refer to the **Card Stock & Label Guide** on the Lexmark Web site at www.lexmark.com.

In tray 1

- 1 Extend the rear paper support until you hear a click.

- 2 To reduce curling or potential jams, open the front output door for a straight-through paper path.

- 3 Flex the label sheets back and forth to loosen them, then fan them.

4 Load up to 10 label sheets with the side you want to print on facing you.

Note: Use labels with a pressure of 25 psi that can withstand temperatures of 200°C (392°F) without releasing hazardous emissions.

In the manual feed

Use the manual feed to print one label sheet at a time. If you experience problems feeding labels in tray 1, try printing one sheet at a time from the manual feed.

- 1 Extend the front paper support on the paper output bin until you hear a click.
