

Revolutionary inks for long-lasting vibrant memories.

Evercolor is a unique six-color hybrid ink system that combines the broad color spectrum of dyes with the permanence of pigment inks. You can print brilliant photos that last longer without fading than traditional photos under display conditions and more than 200 years stored in photo albums.<sup>^</sup>

The perfect partner for superior Lexmark Inks.

This heavy weight, glossy paper gives you the look and feel of real photographs and boasts a unique, quick dry coating that chemically bonds with Lexmark inks to prevent bleeding and feathering - even with ink intensive images. With Evercolor inks and Lexmark Premium Glossy Photo Paper, print brilliant photos that resist fading longer than traditional photos in frames and last longer than 200 years in photo albums!<sup>^</sup>

**CARTRIDGES 4**  
**PLANET ARK**

Lexmark was a founding partner of the 'Cartridges 4 Planet Ark' program. Every Lexmark ink and toner cartridge is 100% recyclable. Refer to our website for collection details.

<sup>^</sup>Based on accelerated fade resistance testing of photos either displayed indoors under glass or stored in photo albums. Photos must be printed on Lexmark Premium Glossy Photo Paper using an Evercolor ink system that includes a Lexmark Color Cartridge and an Evercolor Photo Cartridge. Actual resistance to fading will vary based upon factors such as light intensity and type, humidity, temperature, air quality, drying time, glass, matting, album materials, print media and image. For example, extended exposure to intense indirect sunlight will drastically speed fading.

Inkjet Cartridge Compatibility

Lexmark cartridge technology is your guarantee of great results.

While the brilliant output quality of Lexmark inkjet printers seems to appear on the page like magic, it is in fact, the result of many years of research and development.

Lexmark's inks are strenuously tested and must pass more than 30 tests for function and reliability before they are considered good enough for Lexmark customers.

Plus each new Lexmark cartridge incorporates a new printhead. So, every time you install a new Lexmark cartridge, your prints will be brilliant quality, just like you're using the printer for the first time!
