

Material Safety Data Sheet Magenta High Yield Print Cartridge

P/N X560H2MG

Lexmark has determined that Material Safety Data Sheets are not required for print cartridges. For customer convenience, Lexmark provides product information in this familiar format.

Section 1 - Product and Company Information

Laser Printer Family * : X560

Description: Magenta High Yield Print Cartridge
Part Numbers: X560H2MG

* For complete cartridge/printer compatibility, please reference www.lexmark.com.

Information: 1-859-232-3000
Emergency: 1-859-232-3333
Prepared by: Product Environmental Programs

Manufacturer: Lexmark International, Inc.
740 West New Circle Road
Lexington, Kentucky, USA 40550

Section 2 - Composition / Information on Ingredients

Ingredients	Percent (wt.)	CAS No.	OSHA PEL	ACGIH TLV
Styrene Acrylate Copolymer	70-80	Trade Secret	None	None
Amorphous Silica (modified)	5-15	7631-86-9	None	None
Polyolefin Wax	1-10	Trade Secret	None	None
Red Pigment	1-10	Trade Secret	None	None
Titanium Dioxide	0.1-0.5	13463-67-7	15 mg/m ³ TWA	10 mg/m ³ TWA

Section 3 - Hazards Identification

The following information is based on testing of the product as a whole and/or characteristics of components.

Hazard Information: Primary Routes of Exposure: Dust inhalation, skin contact.

Inhalation: Low acute inhalation toxicity. As with exposure to high concentrations of any dust, minimal irritation of the respiratory tract may occur. Exposure not probable with intended use.

Skin Contact: Not an irritant. Low dermal toxicity. Not a dermal sensitizer.

Eye Contact: Toner may act as a mechanical irritant.

Ingestion: Low acute oral toxicity. Exposure not probable with intended use.

Section 4 - First Aid Measures

Inhalation: If symptoms, such as shortness of breath or persistent coughing are experienced, remove source of contamination and move individual to fresh air. If symptoms persist, seek medical attention.

Skin Contact: Wash with soap and water. Should irritation occur, seek medical attention.

Eye Contact: Do not rub eyes. Flush immediately with plenty of water. Remove contact lenses and continue flushing for at least 15 minutes. If irritation develops and persists, seek medical attention.

Ingestion: Do not induce vomiting. Slowly dilute with 1-2 glasses of water or milk and seek medical attention. Never give anything by mouth to an unconscious person.

Aggravated Conditions: Exposure to high airborne dust concentrations, including toner, may aggravate existing respiratory conditions.

Notes to Physician: No specific antidote.

Section 5 - Fire Fighting Measures

Flash Point/Range: Solid, not applicable

Autoignition Temperature: Not applicable

Flammable Limits in Air UEL: Not determined

Flammable Limits in Air LEL: Not determined

Extinguishing Media: Carbon dioxide, water spray or fog, dry chemical or foam

Hazardous Combustion Products: Carbon monoxide, carbon dioxide, unidentified organics

Special Exposure Hazards: Like many finely divided materials, toner dust, in high concentrations can form an explosive mixture in air which, if ignited, could result in a dust explosion.

Special Protective Equipment: Fire fighters should wear full protective clothing, including self-contained breathing apparatus, if a large number of cartridges are involved.

NFPA Rating: Health: 1 Flammability: 1 Reactivity: 0

HMS Classification: Health: 1 Flammability: 1 Reactivity: 0

Section 6 - Accidental Release Measures

Personal Precautionary Measures: None required for intended use in printer

Environmental Precautionary: Unless specifically permitted for disposal, keep waste out of sewers, watersheds, and waterways. Disposal is subject to national, state, regional, or provincial regulations.

Procedure for Cleaning/Absorption: If a dust cloud is possible due to a spill, remove all sources of ignition such as open sparks, flames, or static discharge to prevent the ignition of the dust. Minimize dust generation during clean up. Sweep up spill with non-metallic broom and dustpan. Contain for disposal. Oil permeated sweeping compound may be useful in cleaning up spills.

Section 7 - Handling and Storage

Handling: To avoid damage to cartridge and accidental contact with toner KEEP OUT OF REACH OF CHILDREN.

Storage: Store in a cool, dry place. Store away from oxidizing material.

Section 8 - Exposure Controls and Personal Protection

Engineering Controls: None required. Use in a well ventilated area.

Respiratory Protection: None required for intended use in printer.

Gloves: None required for intended use in printer.

Skin Protection: None required for intended use in printer.

Eyes: None required for intended use in printer.

Section 9 - Physical and Chemical Properties

Physical State:	Solid powder	Melting Point:	Not determined
Color:	Magenta	Vapor Density (Air=1):	Not applicable
Odor:	Faint plastic-like odor	Freezing Point/Range:	Not applicable
Specific Gravity:	Not determined	% Volatiles:	Not determined
Solubility in Water:	Insoluble	Evaporation Rate:	Not applicable

Section 10 - Stability and Reactivity

Chemical Stability:	Stable
Hazardous Polymerization:	Will not occur
Conditions to Avoid:	High temperatures and flame
Materials to Avoid:	Strong oxidizers
Hazardous Decomposition Products:	Carbon monoxide, carbon dioxide, unidentified organics
Additional Guidelines:	None

Section 11 - Toxicological Information

Primary Routes of Exposure:	Inhalation of dust, skin contact.
Ingestion:	Low acute oral toxicity. Exposure not probable with intended use.
Acute Toxicity Oral Rat LD50 (mg/kg):	>5000
Inhalation:	Low acute inhalation toxicity. As with exposure to high concentrations of any dust, minimal irritation of the respiratory tract may occur. Titanium dioxide, has been listed by IARC as a group 2B (possible carcinogen). Toner is not listed by IARC, NTP, or OSHA.
Aggravated Conditions:	Exposure to high airborne dust concentrations, including toner, may aggravate existing respiratory conditions.
Carcinogenicity Comment:	Neither this product nor any of its components present above 0.1% are listed by IARC, NTP, or OSHA as known carcinogens. Toner is negative in Ames assay.
Exposure Limit Values:	Toner dust is a particulate not otherwise classified (PNOC) or regulated (PNOR).

Section 12 - Ecological Information

Mobility:	Not determined
Persistence:	Not determined
Bioaccumulative:	Not determined
Other Information:	None

Section 13 - Disposal Considerations

Waste Disposal:	This product is not a listed hazardous waste in accordance with Federal Regulation 40 CFR Part 261. If discarded in its purchased form, this product would not be a hazardous waste either by listing or by characteristic. However, under RCRA, it is the responsibility of the product user to determine at the time of disposal whether a material has been contaminated and should be classified as a hazardous waste. Disposal is subject to local, state and federal regulations.
------------------------	---

Section 14 - Transportation Information

DOT Status: Not classified as hazardous material or substance under US DOT.
DOT Shipping Name: Not applicable **DOT Reportable Quantity:** Not applicable
Hazard Class: Not applicable **DOT Packing Group:** Not applicable

Section 15 - Regulatory Information

TSCA (USA) All ingredients are listed on the Toxic Substances Control Act (TSCA) Inventory, have been registered, or are exempt.

SARA/EPCRA (USA) None of the ingredients in this product has a final reportable quantity (RQ) under Emergency Planning and Community Right-to-Know Act (EPCRA)- Section 302: Extremely Hazardous Substances (EHS) or notification requirements for EHS under Section 304.

California Proposition 65 This product contains no known materials at levels that the State of California has found to cause cancer, birth defects or other reproductive harm - California Proposition 65.

DSL (Canada) All ingredients are listed on the Canadian Domestic Substances List (DSL), have been registered on the Non-Domestic Substances List (NDSL), or are exempt.

EINECS (Europe) All ingredients are listed on the European Inventory of Existing Commercial Substances (EINECS), have been registered on the European List of New Chemical Substances (ELINCS), or are exempt.

ENCS (Japan) All ingredients are listed on the Japanese Existing and New Chemical Substances (ENCS) list, have been registered, or are exempt.

AICS (Australia) All ingredients are listed in Australian Inventory of Commercial Substances (AICS), have been registered, or are exempt.

ECL (Korea) All ingredients are listed on the Korean Existing Chemicals List (ECL), have been registered, or are exempt.

WHMIS Hazard Class (Canada) Not a WHMIS controlled product.

Section 16 - Other Information

The following has been revised

since the last issue of this MSDS: No significant revisions to health and safety information.

Additional Information: None

Data are most current known to Lexmark at the time of preparation and are believed to be accurate. No warranty as to their accuracy or completeness is expressed or implied.
